PMP, AALCO (Med & SportsMed)

Course Overview:

AI is reshaping the legal world. Legal professionals must now be ready to tackle disputes involving algorithmic bias, opaque decision-making, and cross-border AI applications. This masterclass, jointly hosted by eBRAM and PMI-ATP, offers a hands-on, strategic guide to:

1. AI Fundamentals & Legal Liability
 - How AI models work and why they're "black boxes"
 - Who is accountable: developer, owner, or user?
2. AI Governance & Risk Management
 - EU AI Act vs. U.S. regulatory approaches
 - Identifying and mitigating legal, ethical, and reputational risks
3. Project Management for Legal Teams
 - Applying Agile and Waterfall methods to legal projects
 - Stakeholder communication and cross-border coordination
4. Live ODR Platform Demonstration
 - How AI, blockchain, and cloud computing enhance dispute resolution
 - Legal tech tools for research, contract analysis, and case strategy

Course Details:

- **Date:** 22 and 26 January 2026, from 7:00 PM to 10:00 PM.
- **Venue:** West Wing, Justice Place, 11 Ice House Street, Central, HK
